

THE CALCULUS WARS

JASON BARDI

SALES POINTS:

- In the spirit of the bestselling *Galileo's Daughter*, *Fermat's Last Theorem* and *Wittgenstein's Poker*
- popular science has seen a phenomenal growth of interest in the last few years
- Finely blended combination of history and scientific detective story

MARKET:

Popular science, history

DESCRIPTION:

Newton, Leibniz, and the Greatest Mathematical Clash of All Time

Now regarded as the bane of many college students' existence, calculus was one of the most important mathematical innovations of the seventeenth century. But a dispute over its discovery sewed the seeds of discontent between two of the greatest scientific giants of all time — Sir Isaac Newton and Gottfried Wilhelm Leibniz.

Today Newton and Leibniz are generally considered the twin independent inventors of calculus, and they are both credited with giving mathematics its greatest push forward since the time of the Greeks. Had they known each other under different circumstances, they might have been friends. But in their own lifetimes, the joint glory of calculus was not enough for either and each declared war against the other, openly and in secret.

This long and bitter dispute has been swept under the carpet by historians — perhaps because it reveals Newton and Leibniz in their worst light — but *The Calculus Wars* tells the full story in narrative form for the first time. This vibrant and gripping account ultimately exposes how these twin mathematical giants were brilliant, proud, at times mad and, in the end, completely human.

AUTHOR BIOGRAPHY:

Jason Socrates Bardi attended graduate school at Johns Hopkins University where he studied in the Biophysics and the Writing Seminars Departments. He is now senior science writer at The Scripps Research Institute in La Jolla, California.

Publication date:	7th September 2006
price:	£16.99
isbn:	1-84344-030-X
Binding:	hardback
Format:	Demy (216 x 135mm)
extent:	288pp
Rights:	UK & Commonwealth
Market Restrictions:	Not for sale in the USA & Canada
BIC code:	PBX / PDX
Report Code:	NP
13 digit isbn:	978-1-84344-030-7
ean:	9-781843-440307
